DETAILED ACTION

Allowable Subject Matter

Claims 1 – 4 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest the limitations of the claims.

McKay shows a three-line balun (Fig. 4A in view of Fig. 4F) but does not comprise prior art.

Merrill (Fig. 1 and Fig. 3) shows a stripline balun where lines 14 and 16 are $\lambda/4$ in length however where line 12 is $\lambda/2$ thus not meeting the limitations of the claims. Moreover the placement of the striplines in Fig. 3 does not suggest the claimed capacitance such as shown by Applicant's Fig. 1.

Wisherd shows a microstrip balun where lines 20 and 22 are $\lambda/4$ in length. A third line 26 is unspecified in length and only opposing lines 20 and 22. Even if the length of line 26 was assumed to be also $\lambda/4$, the relationship of the claimed capacitance is not specified (such as shown by Applicant's Fig. 1) where the distance between lines 20 and 22 are not equal to that of line 26 and ground 30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
